## NEW PRODUCT ANNOUNCEMENT

### ADVANCED PRESSURE SYSTEMS UNVEILS NEW LINE OF APS – FLUID END PRODUCTS

*Booth #701 at the WJTA-IMCA Expo November 2-4, 2015*

Tomball, TX, October 1, 2015—Advanced Pressure Systems (APS), [www.advancedpressuresystems.com](http://www.advancedpressuresystems.com), manufacturer of high pressure water blasting equipment and accessories, announces the release of their NEW line of APS Fluid End precision machined pump parts. APS's fluid ends are ideal for industrial cleaning contractors, resellers, as well as petrochemical and refineries that have on-site water jetting capabilities with the intent to replace or upgrade their current fluid ends. Type 4200 and 3600 fluid ends are designed for HP ratings from 150 HP to 325 HP, and flows from 62.9 gpm at 5,000 psi to 25.2 gpm at 20,000 psi.

#### APS Fluid End Advantages:

- Quick change valve assemblies make field replacement simple.
- Valves and plungers are cartridge format for easy servicing.
- Special tools and equipment are not required.
- High volumetric efficiency.
- Simple design requires fewer spare parts.

APS President Peter Goldsmith emphasized, "At APS we will continue our commitment to superior quality and customer service, which will now extend to these type 4200 and 3600 fluid ends and a full range of replacement parts and accessories. Customers will be Happier with APS."

APS Fluid Ends Types 4200 & 3600, in both 15K & 20K configurations.

- Manifolds
- Valves
- Stuffing Boxes
- Plungers
- Gland Nuts

#### ABOUT APS

Established in 2007, Advanced Pressure Systems (APS), manufactures a full line of high pressure water blasting equipment and accessories, (*pressure ranges from 15,000 psi to 40,000 psi*) used for a wide variety of industrial and environmental cleaning applications, as well as consulting and engineering services. The company has its primary location in Tomball, TX and a second sales office and distribution center in LaPorte, TX. High pressure production items include control guns, flow divider valves, pressure regulators, nozzles, flex and rigid lances, hoses, fittings and safety products. APS provides a complete offering of replacement pump parts for most of the major manufacturers. APS is a stocking distributor and renter of StoneAge™ tools, and supplies Parker & Spir Star flex lances and hoses.
